VERSION 1.3.0 (BUILD 33032) - FEBRUARY 12, 2026

Initial version — VERSION 1.1.3 (BUILD 31813) – JUNE 28, 2025

November 13, 2026

VERSION 1.4.1 (BUILD 33906)

Supported printers: Badgy 100 Badgy 200

Supported OS: Windows macOS

Bug fixes

- Minor bug fixes.

June 05, 2026

VERSION 1.4.0 (BUILD 33561)

Supported printers: Badgy 100 Badgy 200

Supported OS: Windows macOS

New feature

- To better assist users with printer maintenance, you can now activate cleaning alerts and define the number of cards before being notified. Dedicated cleaning content is also available on the website.

Enhancement

- Improved printing quality on macOS.

February 12, 2026

VERSION 1.3.0 (BUILD 33032)

Supported printers: Badgy 100 Badgy 200

Supported OS: Windows macOS

Enhancements

- Improved reliability of the offset configuration interface (*Assistance & Maintenance menu*).
- Improved PRN viewer interface for easier use (*Assistance & Maintenance menu*).
- Optimization of the user interface for greater consistency within the solution:
  - Direct selection of the required printer among all the connected ones, directly from the system tray.
  - Redesign of the overlay's custom savings areas to make the configuration tool more intuitive (*Printer settings menu*).

Bug fixes

- Fix the firmware upgrade issue that occurs when special characters are used in the firmware path.
- Fix for ribbon type synchronization in minimal installation mode.
- Fix for overlay application.
- Fix other minor issues.
