VERSION 2528 (V2.65)

Supported printers: Card Lamination Module | Primacy Lamination | Agilia Lamination | Avansia Lamination

Primacy Lamination
Agilia Lamination

Enhancement

- Laminator cleaning information is now available in the interface of Evolis Premium Suite 2 driver, allowing better management of the card printing solution. In addition to this new feature, new settings have been included inside the Rco command (command to read counter values, cf. technical documentation) as well as a new status: Inf_cleaning.

Note

Laminator cleaning information are applicable in Evolis Premium Suite 2 interface both for Primacy 2 Lamination and Agilia Lamination, but for Agilia Lamination, it will be available only from the next Agilia printer firmware release (> 3.3.21).
