Identify what matters

Evolis Premium Suite 2

Installation notice for Linux

Linux distributions:

- Ubuntu 20.04 and higher
- Kylin OS (V10 SP1 2503 and higher)

To install Linux packages for Evolis Premium Suite 2, please follow the instructions below by running the following commands in the command terminal:

1. Refresh the package manager's cache before you begin (1st installation):

   sudo apt update

2. Driver installation:

   sudo dpkg -i /chemin/vers/evolisprinterdriver2_x.y.z.build-1_archi.deb

3. Evolis Premium Suite 2 installation (UI software component) :

   sudo dpkg -i /chemin/vers/evolis-premium-suite-2_x.y.z.build-1_archi.deb

4. During the initial installation, the command above may fail if certain software dependencies are missing. If this happens, please run the following command to install the missing components and complete the installation of the solution:

   sudo apt --fix-broken install

5. It is strongly recommended that you restart the system before connecting any printer:

   sudo reboot
