EASY4PRO RIBBONS

An Alternative Offer for High-volume Users

The EVOLIS 'Easy4pro' ribbons are designed for card printing professionals with high ribbon consumption who require compact consumables with a small footprint packaging. Easy4Pro range without cassette is the option for experienced users wishing to reduce their plastic consumption and their waste.

ADVANTAGES

The EASY4PRO line consists of the removal of ribbon cassette.

Downsized to minimum dimensions, the Easy4pro ribbons feature an optimized soft packaging:

- This helps to reduce shipping and storage cost for large-volume users
- This also helps to reduce plastic consumption and waste (no cassette, no blister).

These ribbons benefit from the same high level of quality as the standard cassette consumable range and produce sharp, bright images and clear text.

Tested and validated by Evolis R&D and Quality departments, these consumables bring you printing quality and reliability.

GENERAL SPECIFICATIONS

- Ribbon in PET with thin layer of specialized coatings.
- Compatible with PVC and composite cards

STORAGE INFORMATION

These ribbons shall be capable of functioning for up to 1 year after purchase if stored in a cool, dry environment and having remained unopened from the original packaging. Temperature of storage must be between 5-25°C (41 - 77°F) and at RH between 50-70%. Once opened these ribbons shall have a lifetime of 3 months if stored under cool, dry conditions. For all these ribbons, avoid dust, direct sunlight, high humidity and high temperatures. Do not place near solvent or other chemicals.
